KONIC DOORS

Beautifully Crafted by Kells

Our manufacturing partner Kells.

Established in 1997 by P&M Grimes & Sons.

Kells, through their highly experienced team, have been crafting high quality, high performance timber windows & doors, that suit the harsh demanding four seasons in one day Irish & British climate.

Beautifully

Crafted by Kells

*Bespoke

ATTENTION TO DETAIL & QUALITY
IN EVERY KONIC DOOR

Period Modern Bespoke

Continuously investing in their brands, product development and state of the art manufacturing facility, our manufacturing partner only delivers the best timber windows & doors on the market.

Our 2 main materials, Accoya® & MEDITE TRICOYA® EXTREME use Accsys Technologies patented wood modification technology

Why Accoya®?

Choosing the right materials to bring any vision to life is vital. Significant emphasis is often placed on a product's functionality, as well as its aesthetic appeal, but possibly the most critical factor is performance of the materials our high quality doors are crafted with.

While there are many factors at play, the use of highly durable materials, both on the interior and exterior, is paramount in ensuring our doors longevity. With Accoya wood you have it all.

At Konic we only use the highest quality materials to give you the best looking Accoya doors, beautifully hand made and crafted by Kells, an Accoya approved manufacturer for over 12 years.

The Benefits of Accoya®

The benefits of Accoya mean that our products can now be designed with absolute confidence.

Accoya is a stable wood, it is checked and trusted not to visibly swell, shrink or distort with minimal movement, meaning our doors will open effortlessly all year round.

With outstanding coatings performance coatings look brilliant, last longer and with easy and hassle free care Accoya can save you time and money in the long term.

Accoya Konic doors can also support the reduction of operational carbon. Through our product's superior thermal insulation, heat lost through timber external doors is largely reduced.

Sustainability Meets Performance

Accoya is the truly sustainable choice that helps you meet global challenges like climate change. From source to production and through to end of life, sustainability shines through.

Cradle to Cradle Gold certified® Accoya is a non toxic product, kind to the planet.

MEDITE TRICOYA EXTREME

Produced in Clonmel, Co. Tipperary, MEDITE TRICOYA EXTREME is an invaluable material for use in external construction. Its flagship manufacturing process using acetylated wood fibre gives a guarantee of 50 years above ground, giving designers of all kinds a material with all the flexibility and creative potential of medium density fibreboard but for applications previously reserved for plastics or metals. MEDITE TRICOYA EXTREME is made using wood from FSC certified forests operated by Coillte, and has one of the lowest embodied carbon of any mainstream building material, positioning it to be a key material on the road to net zero.

SHERWIN WILLIAMS

Sherwin Williams prides itself on supplying high quality, high performing industrial wood coatings to the industry.

Colour matching process:

Sherwin Williams uses a spectrophotometer to read the requested colour from a chart or sample.

Our software produces a formulation to re-create the requested shade that matches the chart.

Variations in colour matching process:

Sheen level differences (Matt paint vs High gloss) can cause a colour to appear different from what the end user has requested.

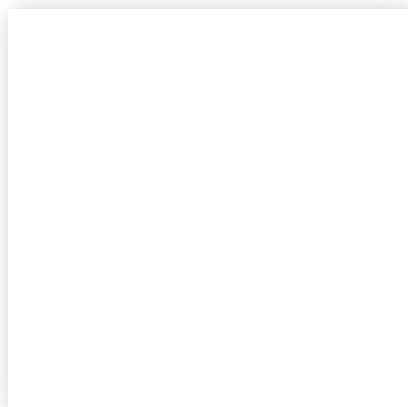

All colour matches are the Sherwin Williams version of the requested colour.

A World Of Ral colours to choose from by Sherwin Williams.

Factors such as an old colour chart vs a new colour chart, can appear to be different shades.

Testimonials

“I just wanted to follow up to say that we’re delighted with the door. It has really made a difference heat wise to the house, and we’re really pleased with the look of the door as well. I also wanted to say that Matt has been superb - he is an absolute perfectionist and the door is fitted beautifully, and he returned to fit a doorknob which we’re also very pleased with. It has been a pleasure to work with you and many thanks to you Paul, for everything you did to get the door in quickly for us - it’s been great to have it in place for the colder winter weather. We’d be very happy to recommend you! Thanks again.”

Laura Rafferty

“Just wanted to drop a line to tell you how really amazed Bonnie and I are with the door. Its a real beauty, great craftsmanship and draft and road noise has almost disappeared. Neighbours have commented and its catching quite a few admirers. Will you please pass on our thanks to all the team in the workshop and of course Matt. Well done all.”

David and Bonnie

“My new door is great and as it has got colder I can notice a big difference! One of my neighbours was admiring my door, and I have highly recommended you to them.”

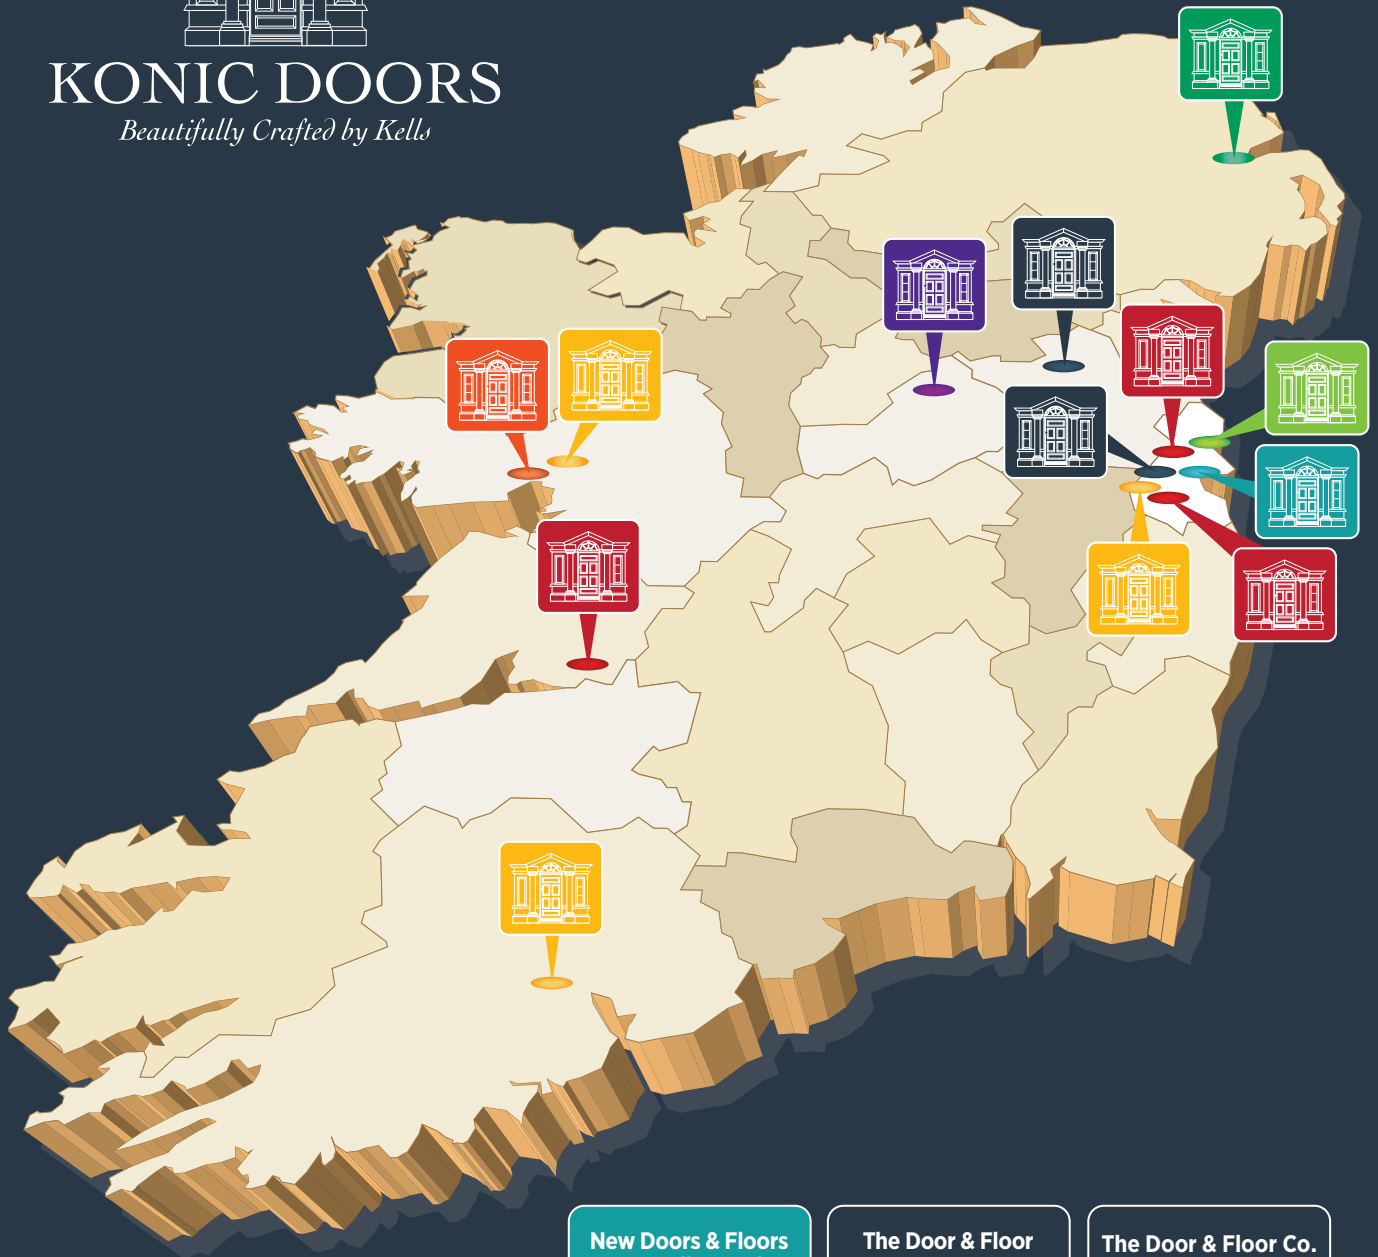

Orla.
